

Artificial Lift Solutions

Get the most from your reserves with well site intelligence

Remote monitoring and two-way control for any Artificial Lift; from sucker rod pumping, ESP's, PCP's, gas lift, plunger lift and everything in between; we've got you covered!

Precise rod string control for rod pumping with sophisticated optimization capabilities with either AC or gas driven hydraulic powerpak options.

Hydraulic rod pumping lifecycle flexibility and smaller lease footprint for well site space constraints.

- Best in class Service
- Accelerated production
- Optimized performance
- Wellhead intelligence

Software Solutions

- Create efficiencies and scalability
- Reduce operating cost
- Improve accuracy and timeliness
- Optimize Production

Simplify and scale your business process with Zedi's secure cloud infrastructure built for oil and gas.

Increase profitability and operational excellence with real-time analytics for better performing assets, streamlined compliance, and optimized resources. Gain efficiency with anytime, anywhere, access to accurate and reliable data utilizing mobile accessibility to view exactly what you want to see, when you want to see it. Leverage the power of Zedi's industrial IIoT platform and purpose built applications to drive your business forward.

Automation Solutions

- Custom Engineered Solutions
- IIoT Expertise
- Control and Optimization
- Solution to deliver results

Zedi practically started the IIoT revolution with our vision, exploration and innovation

Increase profitability and operational excellence with real-time analytics for better performing assets, streamlined compliance, and optimized resources. Gain efficiency with anytime, anywhere, access to accurate and reliable data utilizing mobile accessibility to view exactly what you want to see, when you want to see it. Leverage the power of Zedi's industrial IIoT platform and purpose built applications to drive your business forward.

Measurement Solutions

- Loaded with safety
- Backed by technology
- On and Off-shore Expertise
- Integrated Lab Data

Safe and reliable field and lab experts backed by technology

Decades of field experience, knowledge of local challenges in production operations, maintenance with top notch, on-site Lab Services. Rigid standards with proven methods combined with fully inspected equipment, and an expertly trained, safety-certified team. Speed and accurate measurement give you laser focused abilities to bring your profit margins higher.

Field Solutions

- Expertly trained
- Cost flexibility
- Best in class operations
- Maintenance professionals
- Loaded with safety, backed by technology

Put decades of safe and reliable field experience to work for you

Operations experts with decades of experience and intimate knowledge of local challenges in production operations and maintenance. Reduce labor costs, liability and time involved in acquiring skilled and dependable labor and field operations personnel. From well site maintenance, road and winter access, rentals, logistics coordination to abandonment and consulting; we have the team you need!
