

# Edited Monthly Gas Volume Statements

**Fast and accurate monthly gas volume statements the way you want them, when you need them.**

The gas volumes that you get from your electronic flow meters (EFM's) may not be the exact format you require for volume reporting. Our team of EFM Production Reporting Specialists make sure your gas volume statements are edited, accurate, and on time with our technology leading the way to get you the data you desire.

## Experience matters

- Experienced team will keep you on time
- Find any missing data
- Check for anomalies in normal flow patterns (freezing, pipeline leaks, etc...)
- Check for meter shut-ins, meter manifold service, no flow and clogs
- Review for liquids in the meter that send false readings
- Investigate erratic DP or static readings
- Quality check before any commissioning

## Inspection Reports

- Verify all meter data from the inspection report
- Meter tube size
- Orifice plate size
- Differential pressure range
- Static temperature change and range
- Temperature range
- Contract hour
- Calculation method
- Contract pressure base
- Atmospheric pressure
- Tap location upstream or downstream
- Tap type flange or pipe

## Flexible to fit your needs

- Files: efm/hst/sdf to cfx files for Flow Cal
- FloBoss, Total Flow, Winccu and Thermo Scientific-Auto Pilot Meters
- Time sensitive to your needs

## Backed by technology

Our team analyzes your gas volume data into reputable, and accurate results to protect your profits. We thoroughly go through and edit your data with correct information from our findings, then compare to previous months volumes creating an edited volume statement for your EFM that provides the integrity needed.

Data is then available on Zedi Access and our smartphone app Zedi Go.

**Reporting integrity needed for any audit,  
and piece of mind for your pocket.**

Securely begin your oil and gas production digital transformation with cloud based Zedi Access that is loaded with the features and support you need.

## Join the Journey

Expedite your digital transformation journey to an autonomous oil and gas operation with Emerson's Zedi Cloud SCADA Solutions. Our proven hardware and software, backed by our team for answers to every producers need for stronger, long term returns provide scalable solutions to fit your project size, and growth while increasing the reliability of your assets with improved focus on health, safety and environment.

### Manage and optimize remotely to drive digital transformation in your operation

- Complete, clear data
- Easily set smart alarms
- Predictive intelligence
- Self correcting optimization
- Continuously modulated control
- Exception based safety systems
- Zedi Access software
- Zedi Go mobile app
- 24/7/365 Customer Care
