

Lab Services

We do it all, everywhere and fast!

Fast and accurate, on-site lab services combined with market leading technology

We understand your time is precious and profitable production is your top goal. We have in house project managers that coordinate all aspects of sample collection and testing, so that you can focus on the things that matter most. Our certified labs can handle all your testing needs with the latest equipment and processes for testing oil, natural gas, water, and soil.

Lab locations and field technicians spread across ten states makes Zedi your one stop shop for all sample collection and testing services.

We provide test reports in fifteen minutes from the time we arrive on-site, and e-mail you the reports from the field. Our labs are streamlined to process samples accurately and quickly to provide test reports in days, not weeks!

You're invited!

We invite you to visit our labs, view our on-site testing vehicles, and allow us to do comparison testing. We know you will be impressed with the ease of doing business, convenience of project management, and the timeliness of your test results.

- Victoria, TX
