

Offering employment, careers and business opportunities in the Energy industry for members of Aboriginal communities

Zedi has partnered with Northern Lights College, Treaty 8 Tribal Association, NENAS and key Industry participants to create an integrated approach to sourcing and placing qualified members in gainful and meaningful positions. Zedi's unique approach to aboriginal talent development and strategic industry partner engagement, delivered through a world class institute, are the keys' to making this program successful.

We are currently sourcing and screening qualified candidates interested in the 'Oil and Gas Field Operations' 18 week program with Northern Lights College.

B.C.'s Energy College™

## Strong relationships built on respect, trust and transparency

Show your commitment to developing and employing the skills required for success in the oil & gas industry and apply today. Zedi will assist with job placement for Aboriginal students who have successfully completed this training program.

## Who is Zedi?

Zedi is a leading oil and gas technology and services company in the field of production operations. We help the world's oil and gas producers be more productive, more profitable and more sustainable.

Through technology backed by expert consultation and services, we help our customers realize their production potential. With 60 years of continuous operations in North America, we're recognized as one of the industry's best workplaces which sets us apart in the production operations landscape. With our unique combination of award-winning automation, data management and field and professional services, we offer complete solutions for the challenges our customers encounter.

## Software Solutions

- Create efficiencies and scalability
- Reduce operating cost
- Improve accuracy and timeliness
- Optimize Production

### Simplify and scale your business process with Zedi's secure cloud infrastructure built for oil and gas.

Increase profitability and operational excellence with real-time analytics for better performing assets, streamlined compliance, and optimized resources. Gain efficiency with anytime, anywhere, access to accurate and reliable data utilizing mobile accessibility to view exactly what you want to see, when you want to see it. Leverage the power of Zedi's industrial IIoT platform and purpose built applications to drive your business forward.

## Automation Solutions

- Custom Engineered Solutions
- IIoT Expertise
- Control and Optimization
- Solution to deliver results

### Zedi practically started the IIoT revolution with our vision, exploration and innovation

Increase profitability and operational excellence with real-time analytics for better performing assets, streamlined compliance, and optimized resources. Gain efficiency with anytime, anywhere, access to accurate and reliable data utilizing mobile accessibility to view exactly what you want to see, when you want to see it. Leverage the power of Zedi's industrial IIoT platform and purpose built applications to drive your business forward.

## Measurement Solutions

- Loaded with safety
- Backed by technology
- On and Off-shore Expertise
- Integrated Lab Data

### Safe and reliable field and lab experts backed by technology

Decades of field experience, knowledge of local challenges in production operations, maintenance with top notch, on-site Lab Services. Rigid standards with proven methods combined with fully inspected equipment, and an expertly trained, safety-certified team. Speed and accurate measurement give you laser focused abilities to bring your profit margins higher.

## Artificial Lift Solutions

- Best in class Service
- Accelerated production
- Optimized performance
- Wellhead intelligence

### Get the most from your reserves with well site intelligence

Remote monitoring and two-way control for any Artificial Lift; from sucker rod pumping, ESP's, PCP's, gas lift, plunger lift and everything in between; we've got you covered! Precise rod string control for rod pumping with sophisticated optimization capabilities with either AC or gas driven hydraulic powerpak options. Hydraulic rod pumping lifecycle flexibility and smaller lease footprint for well site space constraints.

## Field Solutions

- Expertly trained
- Cost flexibility
- Best in class operations
- Maintenance professionals
- Loaded with safety, backed by technology

### Put decades of safe and reliable field experience to work for you

Operations experts with decades of experience and intimate knowledge of local challenges in production operations and maintenance. Reduce labor costs, liability and time involved in acquiring skilled and dependable labor and field operations personnel. From well site maintenance, road and winter access, rentals, logistics coordination to abandonment and consulting; we have the team you need!
