

ZEDI ROUGHNECK RELEASE

ZEDI ROUGHNECK ENHANCEMENTS

Gain more insight to our new enhancement to Zedi Roughneck. Zedi continues to improve the platform based on the feedback that you have provided. We are always looking for ways to make your user experience and work processes better.

What's new in Zedi Roughneck?

- 1) Improvements to the Management of Change (MOC) module give the user the ability to add attachments to an MOC after the approval.
- 2) We have performed various bug fixes in Work Orders and Material Transfer to improve the appearance and functionality of these modules.

When is this happening?

August 13, 2018

Where can you see these updates?

1) Improvements to the MOC module – Ability to add attachments to an MOC after approval

After an MOC has been “Approved” the Originator, Reviewer or Approver now have the ability to add attachments in the Details tab before the MOC is “Completed”.

The screenshot displays a user interface for adding files to a Management of Change (MOC) record. At the top, there is a section titled "Add Files" with a dashed rectangular box containing the text "Drop your files here". Below this, there is a section titled "Existing Files" which contains a table with the following columns: "File Name", "File Type", "Description", and "Date Uploaded".

File Name	File Type	Description	Date Uploaded
-----------	-----------	-------------	---------------

2) Bug fixes in Work Orders and Material Transfers

a) Work Orders Bug: Work order naming discrepancies

Fix: The wording in the Action dropdown menu has been changed from “Update” to “Modify” for scheduled and unscheduled completed work orders.

Completed Work Orders [▲ Upcoming Work Orders](#)
[▲ Active Work Orders](#)

Page 1 of 7
Displaying Completed Work Orders: 1-7 of 7

Print

	Action	WO ID	Group Name	Equipment Type	Maintenance Type	Expected Start Date	Expected Completion Date
<input type="checkbox"/>	- Action - - Action - View	1027900	Central Monthly Pumpjack Oil change	Artificial Lift - Plunger Lift, Artificial Lift - Zedi Silver Jack	Operations	2018-07-06	2018-08-05
<input type="checkbox"/>	Modify Group	1022309	Central Monthly Pumpjack Oil change	Artificial Lift - Plunger Lift, Artificial Lift - Zedi Silver Jack	Operations	2018-05-13	2018-06-12

Please note: The Total Cost section has been disabled, and will appear greyed out for completed work orders. These fields may be read-only if you have Work Order Admin permission or due to customer preference.

Total Cost		
Ttl Parts Cost(\$):	1233.00	Ttl Labour Cost(\$): 0.00
		Ttl Service Cost(\$): 0.00
Total Cost (\$):	1233.00	
<small>* NOTE: total costs are calculated from line item costs and can only be edited when the work order is active.</small>		

b) Material Transfer Bug: Issues with transferring rods with MT when rods are in Draft MT's

Fix: If you have rod type equipment (that is set up like tubular type equipment) in Draft MT's, you now have the ability to create a new MT and transfer multiple rod RAMS ID's in one MT even if those rods RAMS ID's are currently in Drafts MT's.
