Gain Anytime, Anywhere Access to Your Fluid Analysis with Data Certainty
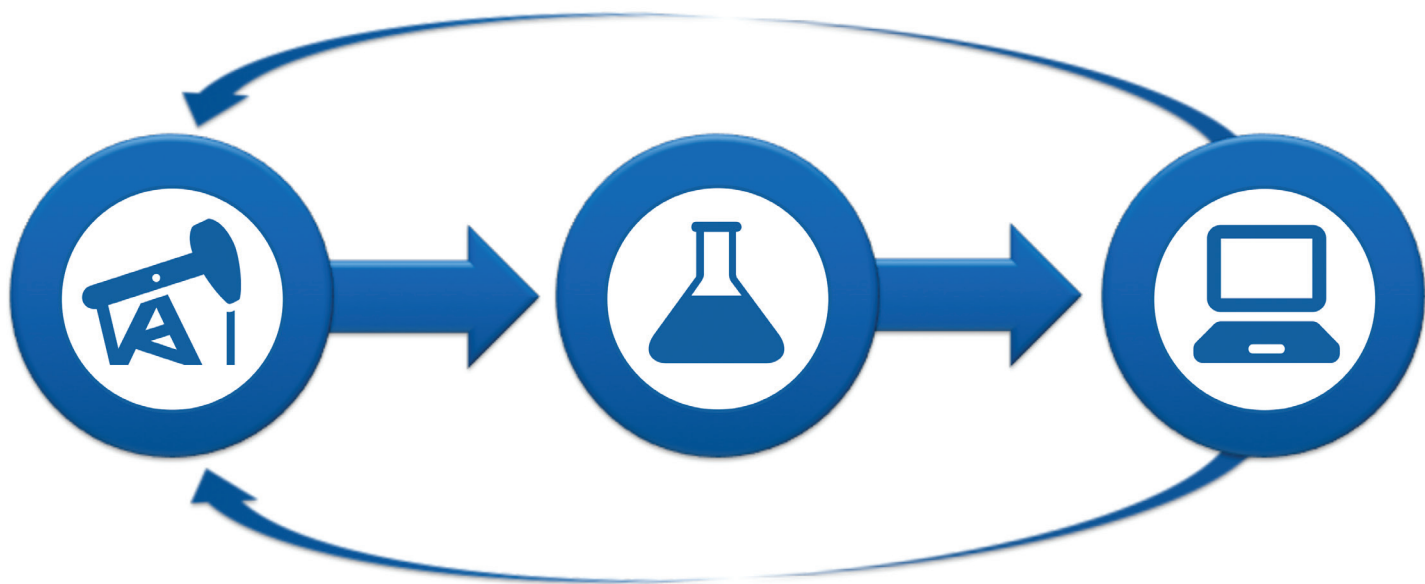

Zedi Composition Management
Cloud-based, highly automated, fluid analysis management software
that saves you time and money with the data certainty you need.

EMERSON.

Digitally Transformation with a Cloud Based Platform

Emerson is committed to developing new digital technologies which can autonomously optimize your operations while maximizing the productivity of you and your employees by empowering them with just the right amount of accurate, analyzed data, at exactly the right time and place without causing you, or your operations to get overloaded with detail that you don't need, or want to deal with; while still knowing it's there and as easy to attain as clicking a button to get a specific report that will provide you with the answers you need from anywhere, at anytime.

Emerson's Zedi Cloud SCADA Solutions is our platform technology that is powered by people. Our people are exceptionally committed to your success, driven by our customer first culture and foundational belief in supporting our customers and each other to deliver the most effective solutions that generate more production, profits and sustainability.

Zedi Go Mobile App

Our app allows you to easily view real-time performance data, analyze trend graphs, input operational data, change settings, issue commands, create customized mobile forms, and update control systems anywhere with the convenience of their smart device. You can significantly reduce downtime, decrease production losses, save money, and time with alarms notifications.

Download our Zedi Go App through the Apple store or Google Play to view, control, and modify production information from your mobile device.

Zedi Composition Management

Emerson's Zedi Composition Management is a web based sampling program with a secure, single vault for all of your lab analyses results, allowing you to streamline scheduling, approvals and notifications all while keeping end devices in the filed updated with lab results to drive better decisions at every level of your organization.

## Easily plan, coordinate, and monitor your sampling program

- Schedule and track sampling according to site requirements
- Quickly and easily arrange sampling services by exporting a sampling schedule and sending it to your lab

Quickly and easily find fluid analyses and know they are up-to-date

- Consolidates fluid analysis in a single repository available to an unlimited number of authorized users
- Accurate and timely fluid analysis data the moment it is published by your lab

Save time and keep field devices up-to-date

- Automatic approval of fluid analyses that meet user-defined validation criteria
- Immediately and automatically updates field devices and meters in Zedi TrueChart once approved

Software as a Service

Fuel the power to unlock the most value from your data with our SaaS cloud-based solutions.

Easily and seamlessly access current, user-friendly data for real-time, accurate decision-making production gains. Our software applications are built for oil and gas producers and are delivered as a service to ensure evergreen enhancements, secure storage and full support. Increase profitability and operational excellence with our software solutions for better performing assets, streamlined compliance, and optimized resources.

Acquire, manage, and analyze your production data while ensuring compliance

- Unlimited users, no seat or site licenses required
- 24/7/365 customer support
- Evergreen application upgrades
- User training

- Access anytime, anywhere
- Data center
- Business continuity
- Infrastructure management

Digitally transform your production operation by integrating a secure, scalable, end-to-end cloud SCADA, software as a service solution.

Join the Journey

Expedite your digital transformation journey to an autonomous oil and gas operation with Emerson's Zedi Cloud SCADA Solutions. Our proven hardware and software, backed by our team answers every producers need for stronger, long term returns. Our scalable solutions fit your project size and growth while increasing the reliability of your assets with improved focus on health, safety and environment.

Manage and optimize remotely to drive digital transformation in your operation

- Complete, clear data
- Easy-set smart alarms
- Predictive intelligence
- Self correcting optimization
- Continuously modulated control

- Exception based safety systems
- Zedi Access software
- Zedi Go mobile app
- 24/7/365 Customer Care
