

Anywhere, Anytime Compressor Monitoring and Control

Zedi Compressor Monitoring and Control

Reduce site visits and increase your operational safety,
profitability and uptime

Monitor and Control Your Compressors from Anywhere, Anytime

Connects to any system, with or without an integrated controller to provide increased operational efficiency; reduced fuel costs, higher productivity and reduced downtime; improved safety, more efficient maintenance, and increased environmental results.

Robust and accurate reporting and trending with historical data storage and alarm management via text or email and cry-out Alarms.

Operational data

- Discharge pressure
- Suction pressure
- Engine temperature
- Oil pressure and temperature
- Running, shut off, error status
- Engine speed (control read/write)
- Emergency shutdown (control read/write)

Keep Go-ing... with Zedi Go

Enter, Monitor and Manage Your Operations from Anywhere, Anytime with our Mobile App.

In the field or simply away from a computer, easily access and input valuable operational data, create custom forms, instantly update systems, and directly control your devices through our mobile app, Zedi Go.

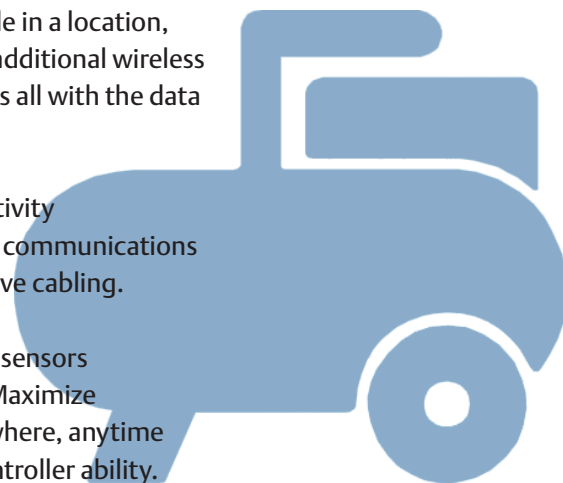

Reduce Site Visits with a Scalable Cost Effective Solution

Easily scalable and expandable solution from one unit to multiple in a location, all serviced by the same communications assembly. Easily add additional wireless sensors to monitor pressures, temperatures, tanks or pumpjacks all with the data you need to reduce downtime.

Quickly realize return with reduced site visits, increased productivity and reduced downtime. Affordable and efficient with a low cost communications assembly and wireless sensors and transmitters with no expensive cabling.

Self-contained power systems with long battery life for wireless sensors and the ability to add solar power systems to wireless sensors. Maximize your return on investment by monitoring your assets from anywhere, anytime with Zedi Access and Zedi Go. Functionality is based on unit controller ability.

Software as a Service

Fuel the power to unlock the most value from your data with our SaaS cloud-based solutions.

Easily and seamlessly access current, user-friendly data for real-time, accurate decision-making production gains. Our software applications are built for oil and gas producers and are delivered as a service to ensure evergreen enhancements, secure storage and full support. Increase profitability and operational excellence with our software solutions for better performing assets, streamlined compliance, and optimized resources.

Acquire, manage, and analyze your production data while ensuring compliance

- Unlimited users, no seat or site licenses required
- 24/7/365 customer support
- Application upgrades
- User training
- Access anytime, anywhere
- Data center
- Business continuity
- Infrastructure management

Automation as a Service

Get fast, pre-packaged, best-practice automation that's up and running in weeks, not months – or years! Automation as a Service effortlessly integrates automation in the field into accurate data to quickly deliver better business decisions, all backed by expert service from every angle.

Wellhead Solutions

- Tubing/Casing • ESD

Well Pad Solutions

- Single Well Battery
- Multi-well Battery

Artificial Lift Solutions

- POCs
- Rod Pump
- Plunger Lift
- ESPs
- PCPs

Gas Solutions

- EFM
- Charts

Liquid Solutions

- Coriolis
- Mag Meters
- Turbines/Totalizers

Facility Solutions

- Tank Levels
- Separators

SWDs, Compressors & more

Digitally transform your production operation by integrating a secure, scalable, end-to-end cloud SCADA, software and automation solution.

Join the Journey

Expedite your digital transformation journey to an autonomous oil and gas operation with Emerson's Zedi Cloud SCADA Solutions. Our proven hardware and software, backed by our team answers every producers need for stronger, long term returns. Our scalable solutions fit your project size and growth while increasing the reliability of your assets with improved focus on health, safety and environment.

Manage and optimize remotely to drive digital transformation in your operation

- Complete, clear data
- Easy-set smart alarms
- Predictive intelligence
- Self correcting optimization
- Continuously modulated control
- Exception based safety systems
- Zedi Access software
- Zedi Go mobile app
- 24/7/365 Customer Care
