

Zedi Connect

Automatic data storage on the device that protects you from network outages, cryout alarms, adaptable high resolution and automated compliance data collection

By adding our Zed-PAC embedded computer to a SCADA installation it reduces communication costs with push communication technology that minimizes the expense of polling, while maintaining demand polling options to give you a real-time look at your well.

Enhance Zedi SCADA with robust data communication

We've brought benefits from our Smart-Alek surveillance product to our Zedi SCADA surveillance and control product to create a best of both worlds solution for your production operations needs.

- High resolution data that will never be lost due to network outages
- Cryout alarms and demand polling features with instant data
- Remote control well site processes with Zedi Access
- Consolidate all your data into a single user interface
