

## Increase Your Operational Efficiencies with Cloud-Based Data and Analytics

### Zedi Cloud SCADA Solutions

Effortlessly integrate data from any source to rapidly enable better business decisions while increasing production, profits and sustainability.

# Rapidly realize your operations potential through advanced cloud analytics, machine learning and mobility.

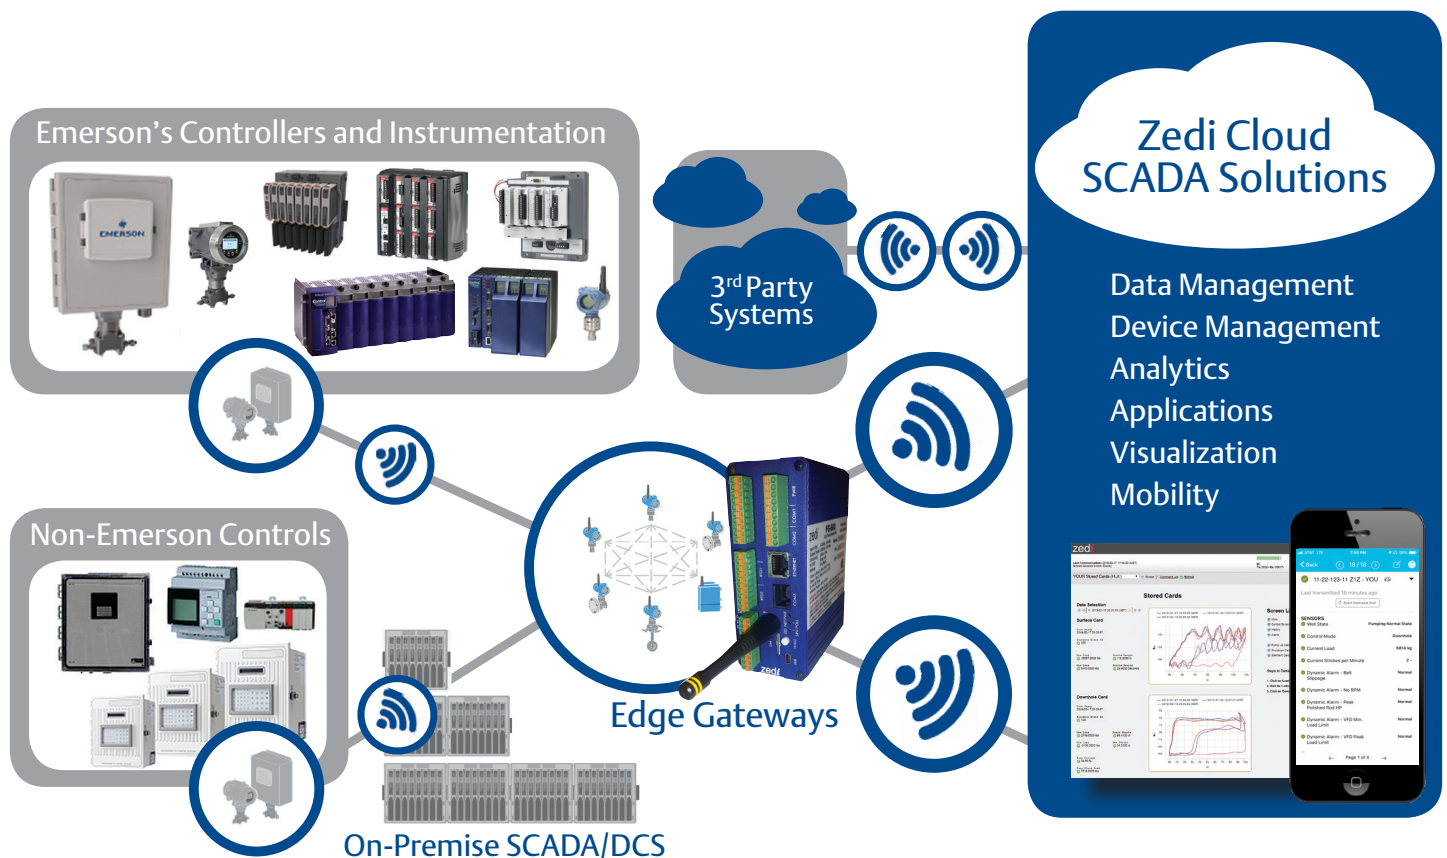

Getting end-to-end operational data in real time from every sensor is the key to optimizing your operations. Provide your staff with secure, real-time, easy-to-read operations data – anytime, anywhere. Driving stronger business decisions at every level.

Emerson's secure, scalable Zedi Cloud SCADA Solutions enable operators around the world to compile data from any digital monitoring hardware via gateways that support a variety of protocols. We provide end users with a web interface, as well as the ability to push data to third party platforms, allowing remote control and optimization via authorized, cloud-based data access.

Discover how our Cloud SCADA Solutions will help you easily understand big data with vivid analytics while providing greater mobility.

## Monitor & control assets – anytime, anywhere.

# Focus on Your Business, Not Your Platform

Our evergreen, cloud-based platform provides scalable and easily expandable advanced capabilities to your rod pump in remote locations, while also offering the same advantages for artificial lift methodologies such as ESPs, PCPs, Plunger Lift and Gas Lift systems.

- Increase safety and productivity
- Reduce site visits & downtime

From one artificial lift system to multiple on a single location, all serviced by the same consolidated platform that can deliver the data you need to analyze performance, increase operational efficiency, maximize profits and promote sustainability.

Our platform connects to anything under the industrial sun! Our people are exceptionally committed to your success, driven by our customer first culture and foundational belief in supporting our customers and each other to deliver the most effective solutions that generate more safety, profits and sustainability.

## Software as a Service

Unlock the most value from your data with our evergreen SaaS cloud-based solutions.

Easily and seamlessly access current, user-friendly data for real-time, accurate decision-making gains. Our software applications are built for operations and are delivered as a service to ensure evergreen enhancements, secure storage and full support. Increase your operational excellence with our software solutions for better performing operations, streamlined compliance, and optimized resources.

### Acquire, manage, and analyze your operational data while ensuring compliance

- Unlimited users, no seat or site licenses required
- 24/7/365 customer support
- Application upgrades
- User training and resources
- Access anytime, anywhere
- Secure data center
- Business continuity
- Infrastructure management
- Seamless evergreen enhancements
- Optional Alarm Management Service
